Lower School Used Book List 2010-11

The following is a list of textbooks which were used previously and will (as far as we can determine at this time) be used again for the 2010-11 school year. Therefore pre-owned books may be available at discounted prices from other parents. Plus you may be able to resell your own textbooks to other parents. The 2009-10 new book price is included as a reference to help you determine your own resale prices. If you do purchase used books, please send them with your student on the first day of class. The teachers will hand out new books to all students who have not brought in their own used books on that first day. Don't forget the Used Book Sale in Central Hall on August 9 from 11 AM to 1 PM.
